---

SUMMARY

Daffa is a Full-Stack Web Developer with expertise in JavaScript and Go, specializing in building scalable and efficient web applications. Proficient in React.js, Tailwind CSS, and UI/UX design, he has a strong foundation in both frontend and backend development. With a background in Informatics and hands-on experience from the Fazztrack Bootcamp, he has worked on real-world projects such as e-commerce platforms, ticket management systems, and cashier management applications.

Passionate about continuous learning and innovation, Daffa thrives in collaborative environments where he can contribute effective and scalable solutions. He is eager to leverage his skills to help businesses optimize their digital presence and technological infrastructure.

SKILLS

Programming Languages: Golang, JavaScript
Frameworks: React.js, Node.js
DBMS: PostgreSQL
Others: Git, HTML, CSS, Figma, UI

PROJECT EXPERIENCE

MyTick Apps

- A ticket sales application developed over the course of 8 weeks.
- This project utilizes React.js, Tailwind CSS for the frontend, and Golang for the backend.
